

Dear faithful prayer partners.....

As I write this bulletin I'm sure that we are all in the process of adjusting to a new normal, somewhat strange to say the least, in keeping ourselves a safe distance from others and washing our hands more than we ever have. I hope you are all well....

This bulletin is in part to let you know that the staff and students have you, our prayer partners, lifted before our gracious God and Father in prayer, as we know you have us covered in prayer as well. Thank –you.

We are thankful that construction on the expansion is able to continue, that the Food Bank is able to supply a weekly portion of the food needs, that the men at the Centre are virus free and that each man is here.

The efforts to keep well and maintain adequate distance between each other has led the Teen Challenge Fund Raising Gala in Edmonton to be cancelled as are all Church outreaches, visitor opportunities and student passes until government approval has been given for large gatherings to assemble again. Other planned fund raising activities have also been put on hold until further notice. This raises the need for prayer for continued sources of funding to be provided, knowing that so many need prayer for the changes to their income and activities of daily living.

As the students are mostly Centre bound, please pray for their well-being, physically, mentally and spiritually as the quarters may become somewhat small. May they see God in the creation around them, and as Healer and Protector and Provider. May they trust Him in caring for their loved ones while they themselves are here, and may they develop an ever-deepening love for God and know His love for them.

We thank you for your prayers.

May we all draw nearer to God in this time, knowing that He is ever with us. Let us rejoice in His Most Holy Name. Let us trust in His outcome.

Til next time,

Maria
